SUMMARY

I am a 3rd-year Software Engineering undergraduate at SLIIT (2023 – Present), having successfully completed the first two years of study and earned a diploma in Information Technology. I have hands-on experience in full-stack web and mobile application development, with proficiency in JavaScript, React.js, Node.js, MongoDB, Kotlin, and Android Studio. Skilled in using the MERN stack, Java, Tailwind CSS, SQL, and XML. I possess strong communication, analytical, and problem-solving abilities and am fluent in both Sinhala and English. I am currently seeking an internship opportunity to apply my technical skills and gain professional experience in the software engineering industry.

EDUCATION

BSc (Hons) in Information Technology Specializing in Software Engineering

Sri Lanka Institute of Information Technology

2023 - Present

CGPA: 3.13/4.00

GCE Advanced Level - Science Stream (Feb 2022)

GCE Ordinary Level (Dec 2018)

MR/Telijjawila Central College

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS, SQL, Java, PHP, Kotlin, XML, Kotlin

Frameworks & Libraries: React.js, Tailwind CSS, Node.js, Express.js, Bootstrap

Tools & Platforms: GitHub, VS Code, Figma, MongoDB, MySQL, Android Studio, Eclipse, Tomcat

PROJECTS

PRABODHA CENTRAL HOSPITAL GitHub

2025

- Developed a Hospital Management System with patient/staff management, appointment scheduling, pharmacy/lab systems, nursing school integration, and a secure role-based admin dashboard. Optimizes hospital operations for better efficiency.
- Technologies: MERN Stack, Tailwind CSS, JavaScript

Melody Mart GitHub

2025

- Developed a feature-rich mobile commerce app for musical instruments, with wishlist, cart, order tracking, secure authentication, and multi-option payment integration to enhance user shopping experience.
- Technologies: Kotlin, XML, Android Studio

Personal Finance Tracker GitHub

2025

- Designed and developed a personal finance management Android app with income/expense tracking, budgeting, and spending insights. Includes smart notifications, data persistence, and optional backup/restore functionality.
- Technologies: Kotlin, XML, Android Studio, SharedPreferences

NOURA Fashion Store GitHub

2024

- Developed a full-featured online fashion store with user account management, product catalog, shopping cart, Review system and secure session-based authentication.
- Technologies: PHP, CSS, JavaScript
